Skills
Non-technical

- Native in English and Portuguese
- Problem solving
- Effective communication
- Teamworker
- Good organizational skills

Technical skills

- Good understanding of computer innerworkings.
- Web development (HTML, CSS, JavaScript and more recently React).
- Familiar with Azure.
- Basic understanding of C#.
- Basic understanding of Linux.

2018 - Present
Wok Fusion – *Kitchen porter*

- Allowed me to work alongside studying, improving my time management and organizational skills.
- I've learned to work in a team and how to help others.
- It also taught me basic work ethics and communication skills.

July 2024 - September 2024
Victoria College – *IT internship*

- I spent 2 months during the summer at Victoria College where I was responsible for the repair of broken laptops, doing an inventory audit, installation of new equipment and some maintenance work.
- It introduced me to the basics of working within an IT environment.

Education

September 2021 - June 2024

Highlands College *– Higher National Diploma (HND & HNC) in Computing*

In this course we've learned a large variety of skills including networking, programming, web and app development, and much more. I completed this course in June of 2024 with my final grade being a First Class Honours.

September 2019 - June 2021

Highlands College *– BTEC Level 3 National Extended Diploma in Creative Digital Media Production*

This period of my education is where I learned different skills such as game design, programming and development. It taught me how to be more creative and look at problems from a different perspective, further improving my problem solving skills. It also guided me on what direction I would like to take my career.
