 - Excellent organisational skills
 - Native in English and Portuguese
-

Education

Sep 2021 - Jun 2024

University College Jersey (Plymouth University) - Higher National Diploma (HND & HNC) in Computing.

First Class Honours.

In this course we've learned a large variety of skills including networking, programming, web, app development, and much more. I completed this course in June of 2024 with my final grade being a First Class Honours.

Winner of the Digital Innovation Award for Individual Honours Project (Prosperity 24/7)

Sep 2019 - Jun 2021

Highlands College - BTEC Level 3 National Extended Diploma in Creative Digital Media Production

Merit

This period of my education is where I learned different skills such as game design, programming and development. It taught me how to be more creative and look at problems from a different perspective, further improving my problem-solving skills. It also guided me on what direction I would like to take my career.

Employment

2018 - Present

Wok Fusion - Kitchen porter

This period allowed me to work alongside studying, improving my time management and organisational skills. I've also learned to work in a team and how to help others, further improving my communication skills.

Jul 2024 - Sep 2024

Victoria College - IT internship

During this period, I worked on various IT tasks, including repairing laptops, conducting inventory audits, installing equipment, and maintenance. This hands-on experience helped me understand the basics of IT work, and I learned a lot about the technical processes and problem-solving.
